

## BluCube BCP65-SS in-ceiling speaker

The BluCube BCP65-SS is the single stereo version of the mid-range BCP65 speakers. The twin voice coils and tweeters deliver a stereo signal out of a single unit enabling just one in-ceiling speaker to be used in a room. The BCP65-SS is ideal for use in smaller rooms such as bathrooms.

<b>Woofers:</b>	6.5" blue polypropylene cone, 1" voice coil, 22oz magnet, vented pole piece
<b>Tweeter:</b>	Dual 19mm silk dome, ferro-fluid cooled, 30 degree swivel and pivot, neodymium magnet
<b>Crossover:</b>	Half fibre PCB board with 12dB per octave crossover for tweeter and woofer, polyimide switch-auto protect reset switch, over power protection for tweeter, gold plated terminal posts will accept 14AWG wire
<b>Frequency response:</b>	45Hz-22KHz
<b>Sensitivity:</b>	88dB at 1W/1M
<b>Recommended amplifier power:</b>	10-150 watts
<b>Impedance:</b>	8ohm per channel
<b>Cutout size:</b>	202mm (8 inches)
<b>Weight (single speaker):</b>	2.04kg
<b>Depth behind surface:</b>	112mm (4.43 inches)
<b>Cut out template:</b>	Included
