

## Blucube CXW-650 Weatherproof surface mount speaker (pair)

The CXW650 will provide high quality sound coverage to those outdoor areas in the summer month no matter how harsh how harsh the weather during the winter months. The hard-wearing housings offer a stylish, weatherproof shell for the high quality audio components housed within. Behind the grille, on each model, an angled bass port prevents rainwater from entering the unit, while the flat brackets are designed to resist corrosion with easy fit keyhole fixings which allow easy horizontal or vertical mounting. All adding up to an easy to install great sounding robust accompaniment to outdoor leisure activities, as well as some indoor areas such as pools and saunas.
